Coleman Gives Its Veterans "A Remembrance Piece" As A Life Long Manifest In Recognition Of Their Sacrifices

Pleasing Ceremony Held Saturday Evening; Hall Packed To Doors; Mayor Frank Abousafy Made Presentations

Coleman once again paid tribute to its youth who joined their country's armed forces during world war number two and left Canadian shores for freedom against the Nazi hordes which sought to dominate the world. This time however words of praise were accompanied by material gifts which the recipients will be able to keep with them down through the years.

The I.O.O.F. hall was taxed to accommodate the approximately 200 people who crowded into the hall. The veterans, many of whom had graciously given their seats to the ladies present, crowded into one corner of the hall where they heard the address and were presented with their gifts. Rehabilitation chairman S. C. Short presided. In his address Mr. Short stated that we were gathered together to perform a ceremony of unusual character. A ceremony that brings in its train a very somber thought that the course of history should entail such a ceremony, and at the same time a joyous and triumphant note that the course of history has been so guided by the valor of our arms that we remain privileged and free to perform such a ceremony.

He praised the work of vice-chairman George Derbyshire, secretary-treasurer Adam Wilson and Mrs. Wilson and the war brides' committee, first under Mrs. Jerry Seaman and to her successor Mrs. Robert Parry, all of whom as committee members of Coleman Reception & Rehabilitation Committee worked hard and unselfishly in the interests of Coleman's Returned men.

Mr. Short stated, "It is some time now since our service men and women returned to us, but we assure them that time in no

way has erased or even dimmed the sentiments we hold respecting their efforts for us. Instead these sentiments have increased. The condition of world affairs today is a solemn reminder of the perils we found ourselves in prior to World War II, and with this reminder comes a constant awareness of the deliverance from those perils. A deliverance made possible by the courage and willingness to sacrifice on the part of our armed forces.

"Speaking of time. I always think of it philosophically. Time is the eternal now. Time is just a measurement of life, and life a constant striving for an ideal. For some, the good life, for others, power, for others wealth. Nothing is ever completely concluded, each phase leaves its consequences. This is a long way around to get to what I wish to say. We have come to show gratitude to the local members of the armed forces for preserving unto us the basic principles of freedom. Certain perils have been met and overcome, but even as they were being overcome, new perils were in the making. The job is not completely done, and I doubt if it ever will be. It was not done after World War I, nor World War II, and we know that even after a third major world war, still the peril will lurk in our midst, waiting for a chance to strike. The preservation of the ideal of freedom is a continuing struggle and if we value it, we must always be on guard, and ready to defend it regardless of whence the danger comes, or regardless of what form it takes.

"The Veterans we honor tonight, spent valuable years of their lives, under arduous circumstances, away from loved ones. (Continued on Page 5)

POLISH CHILDREN RECEIVE COLEMAN PARCELS

Orphans of the Workers' Association in Warsaw, Poland wish to acknowledge receipt of a parcel from the Polish Democratic Association of Coleman. The parcel contained 21 yards of dress goods and flannellette and also few second hand jackets, woolen sweaters for boys and girls and several second hand dresses for ladies. The parcel was valued at \$50. They also expressed thanks to the Coleman Polish Democratic Association for their kindness.

Joe Mikuse, Chairman.

Dave Pow Won Beard Derby; Elks Celebrated Friday

Prizes Given for Best Costumes Depicting "Days of '98"; All Contestants in Beard Derby Received Prizes.

'Twas a joyous occasion on Friday night when Coleman Elks, their ladies and members of the Royal Purple celebrated the gay and adventurous "days of '98". There were ladies dressed in the height of fashion of that age while some of the men dressed in the "height of fashion" regardless of the age.

A dance started off the activities and after all had become thoroughly acquainted with each other time was called to judge costumes and determine the winner of the "old gray beard" derby.

The best dressed lady award was won by Miss Isabel Nelson who wore her grandmother's original outfit of '98. The most original costume was won by Mrs. James Walker.

The best comic dress was won by Beecher Wilson who made the other competitors rage with envy that a mere male should have both the skill and the audacity to enter their competition and walk off with the honor, of wearing the best costume.

The best dressed gent award was won by Segundo Semenzin. Five Elks and members of the Royal Purple failed to know if a second prize was awarded the gents' competition when accosted by The Journal reporter.

Beecher Wilson, after winning in the ladies' division had little difficulty winning the award for the best male comic costume.

Dave Pow was judged champion beard grower of 1948 when a committee comprised entirely of ladies ran soft hands through the long abundant foliage which adorned his cheeks. To show that they really were in earnest in their decision Dave was presented with a handsome wrist watch as a prize. Steve Krzywy was judged second best in the derby. However, the committee thought the men were just dears for growing so many beautiful beards that all contestants were given gifts. However they had a penalty to pay and each was blind-folded while the committee members brought them to the centre of the hall and went to work on the beards with knives. No one was injured.

A pleasing program had been arranged and was thoroughly enjoyed by all. The festivities lasted the greater portion of Saturday morning, daylight bringing a halt to the celebration.

BIRTHDAY PARTY

Little Marilyn Slugg, entertained twelve of her young friends at the home of her parents in Blainmore on Sunday, April 11, on the occasion her sixth birthday.

Mom served cakes, cookies, ice cream and a number of other goodies which were thoroughly enjoyed by the young hostess and her guests. Games were played for a couple of hours. Marilyn received a number of nice little gifts from her play-mates.

Speery Rail Testing Machine Went Through Pass Friday Afternoon

Twice a year the Speery rail testing car goes through the Pass and on Friday afternoon it made its periodical visit. The car is equipped with machinery which makes it possible to detect any defect in any rail over which it may ride. Behind the rail testing car put-puts two small motor driven hand-cars. Should a rail be found in a dangerous condition it is changed immediately.

The car had come from the west coast and was enroute to eastern Canada. Mr. Andy Montabetti, road superintendent joined the car's crew at Crows Nest and tested all rails in his division.

The Famous Cafe Held Up By Two Men; \$50 Stolen

One Young Man Entered Cafe While Second Acted as Look-Out; Proprietress Threatened With Knife If She Made An Outcry.

At 12.30 a.m. last Thursday two men knocked on the front door of The Famous Cafe causing the proprietress Mrs. Hilda McKay, who was alone at the time, to come to the door, unlock it and make enquiry as to what they wanted.

One of the men pushed his way into the cafe while the second remained outside and acted as a look-out. The man who came inside wore a dark cap which was pulled well down on his forehead and spoke in a quiet voice.

Mrs. McKay's version of the robbery as she gave it to The Journal is as follows:

"The man's eyes roamed near the cash register and came to rest on the closed cash box near the register which held \$50. He asked me what was in it and I said "nothing". "Open it if you know what is good for you," he replied, and being only by myself what could I do? I told him I would scream but he said "that knife lying on the counter is not too far away". He took the \$50 which was in the box and as he was leaving he told me not to squeal. He was about 5' 10" in height and was dark complexioned."

Mrs. McKay was too afraid to "scream" and was a very downhearted lady the following morning when her daughter, Mrs. Wm. Smith, visited the Cafe and asked why she appeared so worried. Upon being told she immediately reported it to Constable Wm. Antle who is now investigating the case.

MISCELLANEOUS SHOWER

On Wednesday afternoon, March 31, Miss Virginia Janostak, a bride-elect, was the guest of honor at a pleasantly arranged miscellaneous shower given by Mrs. J. J. McIntyre and daughter, Mrs. Ray Schmidt, at the home of the former.

Miss Veronica Janostak assisted in the unwrapping of the many beautiful gifts which were brought in a beautifully decorated basket.

About twenty-five guests were present and tea was served with Mrs. T. B. Smith presiding at the tea table.

Miss Caddy McIntyre, on presenting the bride-elect with the basket of gifts, gave a very clever speech.

FINED FOR ASSAULT

Don McArthur appeared in local police court on Monday morning on a charge of assault. He had been brought from Calgary by the R.C.M.P. to face the charge. He was found guilty by Magistrate Fred Antrobus and fined \$20 plus \$42 costs.

School Board And Teachers' Salary Committee Deadlocked In New Salary Schedule Negotiations

Teachers Still Ask For \$600 Raise Across The Board; Board Counters With \$150 Increase; Eric Ansley, A.T.A. Secretary, To Be Called In.

A special meeting was held on Sunday morning by Coleman School Board at which time they met the local teachers' salary negotiating committee. Present were Chairman Evans, Trustees Holly, Bomben and Cornett. The negotiating committee comprised chairman Jim Cousins, Miss Helen Dibblee and Mr. Steve Ondros.

The teachers once again asked for a straight \$900 across the board raise for all Coleman teachers. Once again the Board countered with a \$150 boost. Arguments pro and con were debated without either side compromising on their stand.

The negotiating committee informed the Board that they would seek the aid of Mr. Eric Ansley, secretary of the Alberta Teachers' Alliance, to present further arguments in seeking a raise in salaries.

At a recent meeting it was decided to seek prices on insulating the Cameron roof and lead water pipes from Central school to the High School. Due to the uncertainty in which the budget is being received by the Department of Municipal Affairs and the town council these two projects have been tabled for the present.

BLAINMORE LOCAL U.M.W.A. PROTESTS CIVIL LIBERTIES BILL AND FREIGHT INCREASE

The two resolutions below were passed at the regular meeting of the Blainmore local of the U.M.W.A. held on Sunday, April 11, 1948.

Resolution on Civil Liberties
 Whereas W. LaCroix, M.P. has introduced a bill into the House of Commons to amend the Criminal Code, a bill ostensibly aimed at outlawing "the Communist Party of Canada, the Labor-Progressive Party of Canada, and any association, society, group or organization having similar aims or purposes" and

Whereas this fascist-inspired bill like its predecessor Section 98 is in reality aimed at all democratic groups and has as its eventual aim the destruction of all civil liberties in Canada.

Therefore be it resolved that this meeting of the Blainmore local of the U.M.W.A. held on April 11 calls upon all members of Parliament to vote this bill down, and

Be it further resolved that copies of this resolution be sent to Prime Minister King and E. G. Hansell, M.P. Macleod.

Resolution on Increase in Freight Rates
 Whereas the railways have been granted a 21% increase in freight rates, and

Whereas this is seriously increasing the cost of living and further aggravates the discrimination against the West in the matter of freight rates, and

Whereas this increase was granted by the Board of Transport Commissioners at a time when railway profits were the highest in history.

Therefore be it resolved that this meeting of the Blainmore Local of the U.M.W.A. held on Sunday, April 11, demand that the federal government immediately rescind the decision of the Board of Transport Commissioners, and

Be it further resolved that the federal government take action to lower freight rates in Western Canada.

CAR SALES

Coleman Motors last week sold a one-ton truck, Mercury to a Mr. Durksen and a 114 Mercury to Mr. Mike Swab Jr., both of Pincher Creek. A 114 Deluxe Mercury was sold to Joe Gibos.

The Motordrome took delivery of a half-ton GMC truck on Saturday morning and delivery was made Monday morning to its new owner, John Kerr, of Frank.

Crush out your cigarette, cigar, pipe ashes. Use an ashtray! Never throw burning objects out a car window.

TO SEEK ADDRESSES OF VETERANS ELIGIBLE FOR GIFTS

Secretary of the Rehabilitation Committee, Adam Wilson, has revealed that a number of plaques and wallets, gifts of the citizens of Coleman to veterans who had gone overseas, are still to be delivered.

Reason for the delay in sending the gifts is due to the inability of the committee up to the present moment to secure their proper addresses. In next week's issue a list of veterans, whose addresses are unknown, will be published and persons knowing the address of one or more of them are asked to submit the information to Mr. Wilson.

Mrs. Julia Gillespie Passed Away Here Sunday Evening

Came To Pincher Creek In 1908; Life Member of Canadian Red Cross.

Death came quietly to Mrs. Julia E. Gillespie, 62, Pincher Creek old-timer, at 6:45 Sunday evening at the home of her son, John Gillespie, staff member of the local branch of the Canadian Bank of Commerce. Her illness had been of four months duration. She had been brought from Pincher Creek on Saturday to reside here for a time.

Born at Spencerville, Ontario, she was married in 1908 in her home town to Dr. James Johnston Gillespie who had been a medical practitioner at Pincher Creek since 1905. Following her marriage she returned to Pincher Creek with her husband where she took keen interest in the community's progress.

She was a charter member of the Pincher Creek chapter of the Eastern Star, was keenly interested in Red Cross work and her services were recognized some years ago when she was made a life member of the Canadian Red Cross. The Pincher Creek United church was one of her real interests and she worked faithfully in its behalf. In the summer one of her hobbies was her flower garden in which she devoted many hours of enjoyable labor.

Surviving are a daughter, Mrs. Jack Kettles, of Pincher Creek; a son, James Johnston Gillespie of Vancouver; a son John, of Coleman. There are five grand-children. A brother, Mr. Harry Millar, resides in Ontario. Her husband pre-deceased her in 1930 at Pincher Creek.

The body was returned to Pincher Creek on Monday afternoon and tentative arrangements call for the funeral to be held Wednesday afternoon from Pincher Creek United church and interment in the United church cemetery.

Palace Theatre Basement Being Excavated

Tuesday morning Sam Sagoff arrived at the site of the new Palace Theatre with his tractor, mechanical loader, three trucks and their respective crews.

The front of the basement is to be ten feet deep and grade upwards towards the back of the lot. Much debris had to be removed and the machines were kept going at a steady pace throughout Tuesday.

At the weekend a great deal of burnt timber was removed from the two lots owned by the miners' union.

It is understood that Mr. Gentile is now anxious to dispose of his main street lot, which is located between the new Coleman Hardware store and Bencko's.

The street light located alongside the Drew residence at the rear of the Community hall lots and which was disconnected the day of the fire, was re-connected by Joe Malanchuk on Tuesday morning.

Contractor Joe D'Appolonia's crew are busy daily at the rear of the temporary Coleman Hardware building constructing a portion of the main building. The building proper is to be of tile construction and the material will be on the site shortly.

Ask about the law—and a permit before burning grass, fence rows or trash. Then follow safe rules... burn only on still evenings... have help handy... kill every spark.

MICHEL TAXI TIPPED OVER ON CARBONDALE HILL

Sunday afternoon following the short but heavy snow storm which caused roads to become very treacherous to traffic a Michel taxi came to grief at the top of the Carbondale hill.

The car went into a skid and the front wheels apparently hit a rut at a point where a branch road takes one behind the McGillivray office. The car did a flip and landed on its hood with the four wheels spinning wildly in the air. The Motordrome mechanics were called and got the machine back on its wheels only to find that all doors but one were jammed. It was taken to the garage where the engine was started and tested and found in condition to make the return trip to the B.C. town.

St. Alban's To have New Clergyman

Advice has been received from the Bishop of Calgary confirming the appointment of the Reverend A. S. Dewdney, M.A., D.D. as rector of the combined parishes of Coleman and Blainmore. Rev. Dewdney is a son of the late Bishop of Kewatin, and he himself has spent some years in the North West Territories. Mr. and Mrs. Dewdney and family will take up residence in Coleman some time the latter part of May, coming direct from London, Ontario.

The parish was left vacant last October when the Rev. L. S. Mann, then rector, accepted an appointment in Lancaster, Wis., U.S.A.

Exchange Of Ideas

THE IMPORTANCE OF THE INTERCHANGE of ideas between countries has long been recognized as one means of breaking down racial and religious prejudices, and laying a foundation for enduring peace. Within the British Empire there has, in the past, been considerable encouragement given to the exchange of teachers between schools in different parts of the Empire, and also to the exchange of pupils, that they might learn at first hand the problems of countries other than their own. During the war, schemes of this kind were of necessity curtailed, but interest has again been shown, and there has already been a revival of former practices in this branch of education. In Britain plans are at present under way to establish, as soon as possible, a body officially designated to concern itself with educational visits and exchanges.

Will Arrange For Exchanges

The proposed body will be called the Central Bureau for Educational Visits and Exchanges and its chief function will be to keep in touch with the activities of the many agencies in Britain and other countries concerned with these matters and to assist them in any way possible to make necessary arrangements for schemes connected with such exchanges. In the past many organizations have been dealing with educational visits, including individual schools and colleges, the Ministry of Education and other educational bodies, but there has been no central organization for this work. The new bureau will arrange for exchanges not only within the Empire, but with any interested countries. At present, restrictions on the taking of British currency out of the country will somewhat curtail activities in regard to educational exchanges, but there is still much that can be accomplished by such a body, now, and in the future.

Bring Fresh Points Of View

The practice of Canadian teachers exchanging with teachers from various parts of the United Kingdom has long been familiar in our schools, and it has been, without doubt, most successful. Such teachers bring to their classrooms fresh viewpoints, and at the same time gain from the experience of travel and of teaching for a year under an educational system other than that to which they are accustomed. Students benefit similarly when they are privileged to visit other schools on exchange. It is to be hoped that, with the leadership and advice of the newly formed organization, exchange schemes in educational work will progress, and that Canada will be among the countries to benefit from this work. In dealing with the complex problems of our times, tolerance and an understanding of ways of life other than our own are of the greatest importance.

Australia Forbids Jap War Brides

CANBERRA, Australia.—No Australian, whether soldier or civilian, who marries a Japanese woman will be allowed to bring her to Australia, the government has ruled.

The federal minister for immigration, A. A. Calwell, said "If an Australian soldier wants to live with the Japanese wife, he could do so in Japan."

He said "No obstacles will be placed in his way of getting passport facilities to leave Australia."

"No Australian woman whose son or husband is buried in New Guinea or some other Pacific battlefield will have her feelings outraged by any Australian who would flaunt a Japanese woman before her eyes," Calwell said.

GLAND CHAMPION (CLYDESDALE)—Before the largest and most representative gathering of members ever held in Toronto the annual meeting of the Royal Agricultural Winter Fair Association took place just before Easter, as usual. The directors' report recalled that the 19th fair held last fall had brought an entry total of 17,965, more than 1,000 higher than the best previous year, 1938, and 2,000 higher than 1946. Flora Hiawatha by Hiawatha Refiner, grand champion Clydesdale mare at the 1947 Royal Winter Fair. Owned and exhibited by Robert Haening, Bowden, Alta.

Plan To Spend Huge Sum On Breeding Land

Prairie Provinces To Benefit In Improvement Scheme Conducted By Ducks Unlimited

WASHINGTON.—Trustees of Ducks Unlimited, Inc., has appropriated \$225,000 for improvement of wild duck breeding grounds in Western Canada this summer.

Morton W. Smith, president of the sportsmen's organization, said it was the largest such appropriation in the club's 11-year history. The appropriation for field work last year was \$306,000.

Smith, a Minneapolis grain broker, said Ducks Unlimited complements in Canada the wild-life management and conservation efforts in the United States of the Fish and Wildlife Service.

The organization has completed about a third of its long-range program to improve 3,000,000 acres of Canadian nesting grounds, he said.

For Prairie Provinces
The field work this summer will be in Alberta, Saskatchewan and Manitoba, summer home for most of the wild ducks that migrate across the United States.

At an annual trustees dinner, interior secretary Julius Krug told the sportsmen a mid-winter survey shows that the decline of recent years in waterfowl population has been halted.

"We are doing everything in our power to improve the annual inventories of waterfowl population of the wintering grounds, as well as the conditions of the summer breeding grounds," Krug said.

"Our technique is not perfect, but I think it is fair to say that we have more accurate information on which to base regulations today than we have ever had before."

"We had the information made available by Canada's own experts and those of Ducks Unlimited and other private organizations."

BIRTLE, MAN., FAT STOCK SHOW REALIZES \$16,100

BIRTLE, Man.—Birtle's 20th annual fat stock show and sale, had an entry of 135 head, judging was done by Gordon Kiloh, of Hamilton.

The grand champion was owned by Widdicombe Bros., of Foxwarren, Man., and the reserve champion by William Hacking, of Solgirth, Man. These two animals were sold for 35 cents and 25 cents respectively, the T. Eaton Company being the buyers in both cases. The sale price averaged 17 cents per pound, and the total amount of the sale was \$16,100.

NO PROBLEM AT ALL

SYDNEY, Australia.—A solicitor has accepted the trusteeship of 60 lizards belonging to a friend who died because of an interest in the study of reptiles. He has grappled with 20-foot pythons, so the lizards are no problem.

FUNNY And OTHERWISE

"Students, this test will be conducted on the honor system. And now, you please sit in alternate rows, three seats apart..."

"I'll examine you for three guineas," said the specialist.

"All right," said the victim. "And if you find it I'll give you half."

Wife: "What did you ever do that benefited any fellowman?"

Hubby: "I married you, didn't I?"

"A moth leads an awful life."

"How is that?"

"Spends the summer in a fur coat and the winter in a bathing suit."

"I saw you out with your boy last night. I thought you'd given him up."

"Yes; he's just working out his notice."

A firm contractor was engaged on work for an excavation job.

"Now, you," said the foreman to one of the applicants, "do you really think you are fit for hard labor?"

"Well," replied the man, "some of the best judges in the country have thought so."

Granddaughter: "How can a girl keep her youth?"

Grandma: "Never introduce him to another girl."

A youngster is disturbed at the news his mother's rheumatism is being helped by a new treatment. "How shall we know when it's going to rain," he asks.

"I suggest you quarrelled with your husband on the Thursday night," said the magistrate.

"What! And next day pay day?"

He had choked her. She was dead; there was no doubt about it. He had listened to her dying gasp. Now she was cold—cold as the hands of death. Furiously, he kicked her. To his amazement she gasped, spluttered and then began to hum softly.

"Just a little patience is all it takes, Harry," remarked his wife from the back seat.

The son of the house came home from school the other day and announced he'd got top marks for dictation.

Dad's only comment was: "You get more like your Mother every day."

"Is there a simple remedy for sleeplessness?"

"Yes, one need only count up to 100."

"Sounds very good, but our baby cannot count up to 100."

"Did you go to the Character Reader?"

"Yes."

"Did he know anything?"

"Well—he made me pay in advance."

Canada Enjoys Record Boom, Says Abbott

Gross National Production Increased From 11 Billion In 1945 To Over 13 Billion Last Year

NEW YORK.—Canada is enjoying a boom of unprecedented proportions even if the people do not seem to be aware of it, Finance Minister Abbott said here.

Public unawareness of the boom was due largely to "the abnormal way in which the usual barometer, the stock market, has been acting."

"Our gross national production has increased from \$11,000,000,000 in 1945 to over \$13,000,000,000 last year," he said in describing the proportions of the boom. "In 1938 it was \$5,100,000,000."

"Activity of this degree of intensity naturally exerts a severe strain on our economy and on our cost and price structure," he continued in an address prepared for delivery to the Academy of Political Science.

Discussing taxation and inflation, Mr. Abbott said that "I shall be reporting to Parliament in a budget speech a few weeks hence another surplus of such a magnitude as to bring a glow to the heart of any Canadian minister of finance." He gave no hint whether he would seek a similar surplus through this year's budget.

He questioned whether higher interest rates would lead to a less inflationary situation.

Farmers' Income In 1947 Reached A Record High

OTTAWA.—During 1947 Canadian farmers' cash income reached a record high of \$1,991,000,000. This is about 14 per cent. higher than in 1946, the Dominion Bureau of Statistics reported.

Prices for things the farmer had to buy, however, were also rising. The price index of commodities and services used by farmers (including farm living costs) advanced almost 19 per cent. during 1947. On January 1, 1948, the index was 168.5 on a basis of 1935-36 equals 100.

Farmers in Alberta received the sharpest increase—over 20 per cent.—but they were closely followed by farmers in Quebec and Ontario with increases of 17 and 16 per cent. respectively.

All other provinces showed gains ranging from about seven to ten per cent., except for Nova Scotia where farm income was slightly lower than in 1946.

Cash income from the sale of farm products in the western provinces was as follows: Alberta, \$255,000,000 in 1946 as against \$345,000,000 in 1947; Manitoba, \$171,000,000 in 1946 as compared with \$186,000,000 in 1947; Saskatchewan, \$399,000,000 in 1946 as compared with \$431,000,000 in 1947.

In British Columbia farm income jumped from \$86,000,000 in 1946 to \$93,000,000 in 1947.

In Ontario cash income from sale of farm products jumped from \$473,000,000 in 1946 to \$516,000,000 in 1947.

"Although the output of some farm products in 1947 was below, production as a whole was below that of 1946," reports the bureau. "The gain in cash farm income can be attributed to higher prices, an increase in payment on wheat participation certificates and a small reduction in farm inventories."

TITLES FOR HER—Teamed again with Wallace Distmeyer, with whom she finished third in the pairs event at the Olympics, pretty Suzanne Morrow figured in two championships at the Canadian tournament in Calgary, the senior pairs and the dancing. Miss Morrow was fifth behind Barbara Ann Scott in the senior ladies' singles.

DO NOT FAVOR DUCK HUNTING BY FLYWAYS

WASHINGTON.—Duck hunters received notice that the United States Government will move slowly on any proposal to regulate shooting by flyways rather than by zones.

Fall hunting seasons now are established according to well-defined zones throughout the United States. Many sportsmen contend that uniform regulations along flyways—the regular south-bound migratory routes—would be more fair.

But Interior Secretary Krug told Ducks Unlimited, famous sportsmen's organization, that the flyway plan is such a new concept we must go a little slow in applying it."

ABOLISH OLD LAWS

CLINTON, Mass.—No more tickets for illegal parking your horse in Clinton. The board of selectmen voted to abolish by-laws which authorized fines and other penalties for failure to maintain horse stalls adequately and for violating hitching post regulations in the town.

The first daily newspaper in England was published by a woman, Elizabeth Mallett, in 1702.

First Atomic Hen Lays First Atomic Egg

Professor J. B. O'Neill, of the poultry department, University of Saskatchewan, demonstrates the Geiger counter, which measures the amount of radio-active phosphorus in eggs laid by the "atomic hens". Hens like those at right receive radio-active phosphorus in their mash. Laboratory workers are able to trace the movement of phosphorus in the body by means of the Geiger counter, and exact phosphorus requirements of the individual bird may be determined.

By T. R. MELVILLE-NESS
Central Press Canadian

REGINA, Sask. — Dr. James S. Thomson, president of the University of Saskatchewan, wasn't feeding when he recently told a large audience in Saskatchewan that the first atomic egg had been laid by the first atomic hen. It happened at the University of Saskatchewan where there is an experiment under way now at the University, in which laying hens are being given radio-active phosphorus in their feed. Scientists are cautious people, but even they admit that this use of radio-active tracers in feeding tests, may prove to be one of the most important developments of the century in agricultural science.

Already Dr. J. W. T. Spinks has become internationally famous as the man who pioneered the initial experiments using radio-active tracers in wheat plants at Saskatchewan. There has been a great deal of talk about experiment among soils and plants experts, for it is believed to be the first application of atomic energy to the study of plant nutrition. But now Dr. Spinks and Professor J. B. O'Neill of the poultry department are conducting an even more interesting experiment in the use of atomic energy in poultry-research.

This is how the experiment is being conducted. Radio-active phosphorus is fed to hens in their laying mash. Then the hen and the egg is investigated by using an instrument called the Geiger counter. This Geiger counter is the mysterious contraption developed by atomic scientists to discover and measure amounts of radio-active substances near it. If the egg is up for examination it is placed on a small tray within range of a coil. If the hen that laid the egg has eaten a ration of atomic mash the day before a series of lights begin to blink rapidly on the panel of the machine. The lights convey a message to the experienced operator, as does a ticker arrangement which is quite audible several feet away from the machine. To an audience of laymen who saw a demonstration in Saskan-

toon recently, the lights and the ticker indicated only that there was radio-activity within the egg. But Professor O'Neill and Dr. Spinks who staged the demonstration were able to read the message of the lights and the ticker, and tell how much phosphorus was in the egg.

The key to explaining this experiment is the fact that phosphorus made radio-active by atomic energy, will accompany ordinary phosphorus through all its functions, whether in a wheat plant or in the body of a chicken.

Included in the knowledge gained by experts was the fact that phosphorus in the hen's feed shows up in the shell of the egg in 24 hours, but not in the white and yolk for a period of several days, six days in the case of the yolk. In the chicken itself phosphorus appeared in the leg bones 42 hours after feeding.

This is the first time in the history of dietetics that experts have been able to measure accurately the amount of phosphorus used by a chicken in its various body functions. By projecting the experiment a little further, they will discover whether or not the need for phosphorus varies

from bird to bird, from breed to breed, or possibly from season to season. But the important thing to consider in this experiment, is that this line of research definitely will not stop at phosphorus. Dr. Spinks says that practically all the elements in livestock feed rations can be made radio-active, and the same research can be applied to all of them.

The poultry experiments now being conducted are still in their initial stages, and it will be a long time before scientists can issue definite feeding instructions. But when experiments have progressed to that stage, feeding recommendations can be based on absolute accuracy, rather than the results of trial and error tests. This is a way in which deficiencies in diet can be avoided as never before.

In time too, all kinds of livestock will probably be experimented with, and the same sort of results obtained. Which all adds up to the fact that atomic energy can be of tremendous help to agricultural science and may prove to be the most important development of the century in its application.

WORLD HAPPENINGS BRIEFLY TOLD

H.M.S. Warrior, aircraft carrier returned to the Royal Navy after loan to Canada, is to be a training unit.

Two men who sold meat for more than the official price were each sentenced to 10 years' imprisonment by a Moscow court.

Harry Price, 67, of Pulborough, Sussex, England, well known in Britain for his activity in hunting ghosts, died recently after a heart attack.

United States authorities have handed Italy's treasury a \$4,500,000 cheque in payment for work by Italian prisoners-of-war in co-operation with U.S. armed forces.

German press reports said the Russians have ordered that trains hauling reparations to the Soviet Union hereafter travel only at night to reduce attacks on them by Germans.

A memorial garden to "the people of London who met their death in the course of the defence of their city and the Empire during the war" is planned by the London County Council.

A second consignment of at least six Mosquito combat planes was unloaded at Shanghai from the steamer Lakeside, along with 6,000 tons of arms, ammunition and railway supplies.

Capt. J. Fred Pratt, 79, of Ottawa, who established the right-of-way for the old railways and canals department from The Pas, Man., to Port Nelson and Churchill, Man., died recently following a lengthy illness.

Artificial blood plasma made from the action of bacteria on sugar is being made in England. Known as dextron, it is undergoing exhaustive tests and the final results will not be known for some months.

THEY DON'T DO THAT NOW
ELIZABETHTOWN, Ill.—Dues-roy of a 48-year-old mail order catalogue in the attic of Mrs. J. F. Scott here revealed a striking comparison with present-day sale items. Included in the advertisements were mattresses on 60 days' free trial.

KILLED ON TRACKS—Raymond Garrity, 23, whose home is in St. Catharines, was killed when struck by a train as he was walking to work in Hamilton, Ont. Sectionmen shouted at him as he was walking along the track, but he apparently did not hear their warning as the C.N.R. passenger train approached.

High Costs Of Feed Cut Poultry Flocks In U.S.

VANCOUVER.—Poultry producers across the United States are reducing their flocks by approximately 20 per cent, and major reason is the high cost of feed, according to a survey made by the agricultural department in Washington.

With feed well over \$100 per ton the average producer is thinking and acting in terms of reduction. Experts forecast higher prices for eggs and poultry in 1949.

The big ranches are trying to offset the high cost of feed by improvements in farm operations, and some farmers are actually thinking of increasing production.

This is true of the Washington Co-operative Chick Association with 5,000 members. They have three farms operating under a "master farming" plan, and they told a group of Canadian visitors that they meant to expand as rapidly as possible.

Valuable minerals are taken from the Dead Sea.

GARDEN NOTES

Double Harvests

Where one aims at getting two crops of vegetables from the same ground, usually a combination is selected of something early and late such as radish, lettuce, spinach and peas, followed by late beets, beans and carrots. Just as soon as the soil is fit to work one can put in the first three mentioned. By the time these are ready for the table there will still usually be time to make the last sowings of beets, beets, carrots, corn, etc.

Another method of double cropping is to have alternate rows of quick-maturing things with slower but larger growers. Thus in between the rows of potatoes, beets, beans, corn, etc., we will plant lettuce, spinach and radish. The last will be used up and out of the way before the first mature require full space.

Suits All Tastes

One of the satisfying things about gardening is that one can spend as little energy or money as one wishes. There is scope for the most elaborate planning designs for an immense amount of exercise if one feels that way. On the other hand if time or health are limited, or if one feels like leading, then one can have a garden to suit that mood, too. One cannot say that a small flower garden is less beautiful than a large one, but there is a difference in the amount of work involved.

It is really amazing the results in satisfaction and beauty one can get from a tiny plot of flowers. And they will not take much work either. A little digging and a few packets of seeds or boxes of started plants are all that are needed. If one has more time it can be enlarged, and as ones interest grows more frills can be added.

Some enthusiasts, for example, plant all blue or all yellow flower gardens, some prefer sharply contrasting borders. The beginner and many others, however, are advised to stick to fairly simple designs, with irregular clump plantings rather than straight rows. And also instead of solid sheets of one color, a continuous display of bloom will usually give more satisfactory results.

Radium costs nearly \$30,000 a gram.

Health LEAGUE OF CANADA presents **TOPICS OF VITAL INTEREST**

DOCTOR WARNS AGAINST INDISCRIMINATE USE OF VITAMIN PILLS

No one should attempt to diagnose and treat his own troubles by taking vitamin pills — such pills should be used only when prescribed by a doctor. Such is the advice given by Dr. E. H. Bensley in an article—"The Truth About Vitamin Pills"—in the current January-February issue of Health, official magazine of the Health League of Canada. Dr. Bensley is Director of the Department of Metabolism and Toxicology at the Montreal General Hospital.

In view of the widespread indiscriminate use of vitamin pills, it is fortunate that there has been no evidence to date that harmful effects are produced by vitamins in the doses ordinarily taken," Dr. Bensley writes. "It is true that vitamins can act as poisons if they are taken in amounts far in excess of those recommended for either the prevention or correction of deficiency diseases." He says this has occurred sufficiently often in the case of one vitamin (D) "to be worthy of note."

He adds that although harm may not be caused directly by the indiscriminate use of vitamin pills, this practice, like all forms of self-medication, may be indirectly harmful in that it gives the individual a false sense of security and leads to delay in seeking medical advice.

Dr. Bensley says that there is no evidence that health is improved by giving extra vitamins to a person who is not suffering from a specific vitamin deficiency disease. Vitamin pills alone cannot correct dietary deficiencies. Pills may help but their reliance must be placed on a balanced diet.

He adds, however, that condemnation of vitamin pills as being of little or no value would be absurd. Vitamin pills or similar forms of concentrated preparations of vitamins, he states, are of value under two sets of circumstances. They may be used—but only when prescribed by a physician—first to prevent the development of diseases due to deficiency of vitamins in the diet, and second, to treat diseases due to vitamin deficiencies.

Benjamin Franklin was the seventh in a family of 15 children.

Rialto Pool Room

Bride Wore Mother's Wedding Dress

A wedding of interest was solemnized at St. Patrick's church, Lethbridge, on Tuesday morning, April 6, when Virginia Janostak, daughter of Mr. and Mrs. Stephen Janostak, became the bride of Mr. Wilfred Shremp, son of Mr. Fred Shremp, of Twin Butte, Alberta.

Given in marriage by her father, the bride wore her mother's wedding dress which was all lace over white satin, her veil was hip-length. She carried a bouquet of Talisman roses.

Miss Veronica Janostak, sister of the bride, was bridesmaid and she was dressed in blue net with matching shoulder veil and cap. Her bouquet was of pink and white carnations.

Mr. Joe Shremp, a brother, was the groom's attendant.

Following the wedding ceremony a reception was held for members of the family in the Rose Room of the Club Cafe.

For the honeymoon trip to Calgary the bride chose a winter white wool suit with navy blue accessories.

The happy young couple will reside at Twin Butte.

MOORE — PHILLIPS
A very pretty wedding took place at St. Paul's church, Newbridge, March 15, with the Vicar (Rev. J. Evans) officiating, the contracting parties being Miss Alberta Phillips, youngest daughter of Mrs. A. Phillips, sr. and the late Mr. A. Phillips of Coleman, Alberta, Canada, and Mr. Erie Moore youngest son of Mrs. J. Moore and the late Mr. J. Moore, Cwmillery.

The bride, who was given away by her brother-in-law, Mr. W. J. Luxton, was attired in a two-piece suit of pale blue, with halo headpiece to tone.

The Matron-of-Honour was Mrs. A. Luxton, niece of the bride, who was attired in a turquoise two-piece suit with pale pink accessories.

The duties of best man were carried out by Mr. Ray Moore, brother of the bridegroom.

The service was choral, and the bride was presented with a silver horse-shoe on leaving the church by Miss Wendy Fairhead, niece of the bridegroom.

The reception was held at the Dorothy Cafe, Newbridge, and the happy couple left for Torquay, where the honeymoon is being spent.

The bride's going-away suit was of green tweed with brown accessories.

They will make their future...V

THEATRE NOTES

REJECTED LOVE IS 'POSSESSED' THEME AT BELLEVUE THEATRE SATURDAY

An exhaustive inquiry into the anguished emotions of a woman rejected by the man she loves furnishes the exciting thematic fabric of Warner Bros. "Possessed," coming to the Bellevue Theatre Saturday. Joan Crawford and Van Heflin, in co-stellar roles, head the cast of the Jerry Wald production which follows faithfully in the distinguished tradition of its two illustrious predecessors, "Mildred Pierce" and "Humoresque."

Essentially the story of an impassioned devotion that is transformed into an overwhelmingly vengeful hate, the film details the pathetic progress of Louise Howell (Joan Crawford) from the height of her all-consuming love for David Sutton (Van Heflin) through his waning interest in, and eventual

disavowal of her; to a bitter, breathtaking climax in which she discovers that an empty revenge has brought about her own miserable undoing.

LADD, LAMOUR HEAD CAST.
BLAIRMORE SAT. & MON.
"Wild Harvest," Paramount's action thriller arrives next Saturday at the Orpheum Theatre with Alan Ladd, Dorothy Lamour, Robert Preston and Lloyd Nolan starred.

Ladd, Preston and Nolan will be seen as rugged members of

a harvesting combine crew whose work on the wheat fields requires them to be as quick with their fists as they are with their machines. Miss Lamour portrays the niece of a farmer, a girl who doesn't belong on a farm and who uses every means, however unscrupulous, to get away from it.

The romantic complications added to the thrills of wheat field fires, fistfights with rival harvesting crews and other typical Alan Ladd activities, combine to make "Wild Harvest" an excellent movie bet.

FOR CANADIAN PACIFIC TEST: Pictured above is a 1500 horse power diesel road engine of the type which will be tested this month under actual traffic conditions by the Canadian Pacific Railway. The locomotive can be used singly or in connected units of two or three, developing full 4,500 horse power in the latter case. Future of the steam-iron horse in Canada may well depend upon results of these tests. The Canadian Pacific is already turning heavily to diesel locomotives for yard use throughout the system.

NOTES AND COMMENTS

TRAFFIC GUIDES REQUIRED

When are we going to co-operate with the tourist who chances to pass through our town? Isn't it time we co-operated to the extent that we can keep him on the main highway and prevent him from losing his way due to a maze of residential streets which criss-cross the highway with nary a sign to distinguish a street from the main highway.

The provincial survey crew who have been re-routing part of No. 3 highway from Pincher to Bellevue has reached the Pass. We suggest the town council contact the chief engineer and seek information as to the plans made by the Public Works Dept. for the highway running through Coleman. Possibly the highway may be changed and the above traffic problem solved. If no change is contemplated it may be possible to urge that it be routed along Third street in west Coleman, a standard grade highway to be built along the west side of the bluff. By using Third street the motorist would get a straight road leading to Carbondale hill and he would be spared the "mental hazard" at Salus' corner.

To eliminate so many motorists becoming lost at the bank corner it is suggested that the arrow system, as used in all large towns and cities in Canada and the States, be adopted and erected at Johnston's corner as the highway leads off Second street and on to main street. The reflector signs can be used to direct traffic at night.

We must adopt some system for guiding traffic through town this summer.

HIGH WAGES vs SECURITY

During the war years the labor unions, particularly in the States, must have given great thought to what they intended to seek from industry once hostilities had ceased. A giant blue print recorded the objectives of labor. Chief among those objectives was increased wages. Wages rocketed skywards both in the States and Canada, and as was to be expected by all sane thinking people, prices sky-rocketed too. Fear of inflation loomed greater and greater as prices of every commodity to increased and the value of the dollar decreased.

During the past few years it would appear that labor leaders tend to believe that the only manner in which they assure the rank and file that they are working hard in their behalf is to constantly agitate for ever higher wages. This, to our mind, is downright folly. High wages, now as in the past, are here for only a fleeting moment. True, the young worker will revel in the high wages but what of the middle aged worker who has experienced boom and bust periods. He is coming ever closer to the day when he will no longer be able to do a hard day's physical work. In raising a family and giving them a proper upbringing and education he has been unable to save sufficient to tend him in old age. His thoughts turn to "security in old age" for his wife and himself. High wages are nice to have, it is true, but financial security when one's work days are done is a thousand times better.

Labor leaders would do well to forget this mania to constantly strive for increased wages and seek "security" for their members, security when one's work days are over.

Have You Registered as a Donor?

To supply hospital patients in Alberta requiring blood transfusions, the Canadian Red Cross must collect nearly 800 donations of blood each week from voluntary donors. In order to meet this demand mobile teams of the Red Cross travel throughout the Province holding clinics

in towns and cities. Shown above, a transport driver is loading one of the mobile vehicles used to carry clinic equipment. The Red Cross mobile blood donor clinic will soon visit Coleman and citizens are asked to register now with the Coleman branch of the Society.

ones, and not knowing their fate from one day to the next. They were embroiled in a physical war, a test of arms, to prove whether our way of life is more enduring than the police state. The physical war has ended, but the basic struggle has not. Today we meet forces more sinister, more subtle, than any armed force deployed on the field of battle. We have come from a physical war to an intellectual one, if you will. The will to power is again asserting itself, and in a way that is hard to contain. It is the creeping paralysis that enters into the minds of men, a lack of determination to think things through — a readiness to exchange their liberties for a questionable gain. Be on guard against these things, let the frontiers of your thinking be encompassed always within the framework of the basic principles of freedom.

MR J. J. MCINTYRE in a brief address extended his deep sympathy to the loved ones of those Coleman boys who failed to return.

The returned veterans had done a great job. The weight fell on their shoulders when world freedom was challenged and now we again place the weight on their shoulders to lead us into the future.

The gifts which they were to receive tonight were small reminders of the debt which we owe them. He wished them health, prosperity, happiness and all the best the world could give them. He closed by stating that he hoped the day would never come that we will cease to remember the debt which we owe our Returned Veterans.

Mayor Frank Abousafy was called upon to make the presentations. He stated that while some might think Coleman a little slow in making presentations Coleman most definitely was not slow during the war years when its cigarette fund was the best in the province and bond and savings certificate sales did the town honor as it

sought to support its boys with the materials of war.

On behalf of the citizens of the community who had contributed to the fund which had made the gifts possible he took great pleasure in making the presentation of gifts to the 128 veterans whose names were listed on the official tabulated sheet submitted by the Rehabilitation Committee. Many veterans were present to receive their gifts while other veterans, no longer residents of Coleman had a family member receive their gifts in their stead.

Each veteran was presented with a plaque on whose silver shield was inscribed the words "Presented by Coleman for duty well done, 1939-1945." Directly below the main shield was a smaller shield on which was engraved the recipient's name. In addition to the plaque a wallet of genuine English L Morocco Leather was given each member.

Following are those receiving gifts:

W. H. Apponen, J. Anderson, W. Anderson, J. Andreaschuk, R. Beddington, W. R. Balloch, G. W. Burchell, J. W. Bell, G. Burtinik, J. Bodisch, L. Brown, G. Booth, O. S. Barringham, R. E. Bowen, F. Boulton, I. Brennan, R. Brown, F. Beddington, W. Beddington.

N. Cytke, J. H. Campbell, J. R. Cousins, F. Coccione, A. Celli, L. A. Caroe, M. Cousins, W. Clelak, A. Chalmers, M. Cornett, A. Coccione.

E. W. Derbyshire, E. W. Dibblee, G. F. Derbyshire, U. DeCecco, J. L. Dunbar, D. J. Daly, J. L. DeLuca, R. Desobol, G. D'Andrea.

W. S. Vollendorf, A. Wragg, E. Watson.

N. Youshock.

26 gifts were left following the presentation. The addresses will have to be secured for the majority of them before they can be sent to their owners.

Legion president Fred Hirst, in a brief address, thanked the citizens of Coleman and the committees of the Rehabilitation Committee for their efforts on behalf of the Returned men.

A dance which lasted well into Sunday morning followed the presentation.

JUDGES PICK ALBERTA WINNERS

Grain experts who know requirements of good barley in the inspection rooms of the Board of Grain Commissioners at Winnipeg on December 31 picked out samples of 35 Alberta farmers as the best entries from their Province in the \$25,000 National Barley Contest sponsored by the Brewing and Maltng Industries of Canada. Four were picked as Provincial winners, and the other 31 were awarded cash prizes in their regions. In all they took \$3,288 of the prize money. Best sample of Alberta Maltng Barley in 1946 was grown by George W. Johnson, Red Deer, awarded \$400. The other three Provincial winners were Ted Casavant, Legal, \$300; Louis St. Arnaud, Vimy, \$200; and Ray Niemela, \$100. Left to right in the picture is judging panel, A. C. Wilson, Edmonton, Alberta Field Crops Commissioner; Prof. A. G. McCalla, head of Plant Science Division, University of Alberta; F. S. Ludlam, Winnipeg, Chief Inspector, Board of Grain Commissioners; J. E. Blakeman, Winnipeg, District Inspector of Dominion Department of Agriculture Plants Product Division; A. T. Elders, Canada Maltng Co., Winnipeg. Missing from the panel is D. S. Kaufman, Dominion Maltng Co. In front of judges is Prof. T. J. Harrison, Chairman of the National Barley Contest Committee. The Alberta Provincial champions are contenders in the Inter-provincial Contest, which carries four prize of \$1,000, \$500, \$300, and \$200. These will be determined at the Manitoba Winter Fair at Brandon the week of March 31.

POLISH VETERANS WELCOMED TO CANADA: Approximately 1,700 Polish war veterans, members of the famous British 8th army, landed at Halifax and were transported across Canada immediately by C.P.R. for immediate placement at farm work. TOP, J.S.W. Grocholski, Toronto lawyer and president of the Canadian Polish Congress, extends a welcome to a group of be-ribboned veterans, many of whom were wearing the 8th army Crusade patch. They were discharged before sailing from Naples, Italy. In the lower picture the new arrivals received part of their last army pay in the embarkation area through the Canadian Pacific offices before being despatched to various Canadian army depots for disposal to Canadian farms.

NEW CANADIANS: Three young Polish orphans, shown in the picture at right, were among 779 persons brought to Canada on the first voyage of the Canadian Pacific's new immigrant ship Beaverbrae (left). The children, cared for by older passengers during the voyage are shown shortly after landing at Halifax on their way to join relatives in Winnipeg. The 9,000 ton Beaverbrae, formerly the German vessel Huascar, was obtained by Canada as part reparations and will bring new settlers to the Dominion every five weeks.

Handling money

costs money

It costs you more to live these days.

And it costs your bank more to provide efficient banking service.

Bank staffs are more than half as large

again as before the war; payrolls have

nearly doubled. Taxes are up. So is the cost of everything banks buy.

Yet you pay no more for banking service than you did ten years ago. Today 7,000,000 Canadians are bank customers—striking evidence of the ever-widening usefulness of competitive banking in our national life.

National Wild Life Week April 10 to 16

Through a carefully-planned campaign designed to bring Alberta's natural resources to the attention of other parts of the North American continent and the world in general, this province is gaining increasing prestige as a target for industry and recreation.

The importance of bringing to attention of Albertans the conservation of these same resources this week was occupying provincial leaders in government and individual organizations.

To that end, it is planned that Alberta will hold a leading role in National Wild Life Week, an institution introduced in the House of Commons and Senate at last year's session by John R. MacNicol, M.P. April 10 to 16 inclusive has been set aside as a seven-day period when Canada's attention will be focussed on the great outdoors.

Giving prominence to the week will be service club speakers, the clergy, school teachers, business concerns, newspapers, magazines and other periodicals.

Different fields of natural conservation to be stressed include such organizations as Ducks Unlimited and in addition, water conservation, forestry conservation and fire prevention and fish and game conservation generally.

The work of Ducks Unlimited (Canada) provides the best example of what can be done in the field of conservation. To date, according to latest releases, this organization has invested \$1,750,000 in the work in Western Canada. Dominion, provincial and municipal authorities and Canadian citizens from all walks of life have contributed land, water and co-operation totalling ten times the cash invested. As an adventure in voluntary national and international co-operation, the project has enjoyed overwhelming success.

Results to date include: 1. 225 wild life conservation projects launched. 2. Over 1,200,000 duck-nesting areas safeguarded from the threat of drought. 3. New permanent waters created. 4. Transient "phantom waters" rebuilt into permanent lakes. 5. Miles of fireguards established; neighborhoods organized to fight prairie, marsh and timber fires. 6. Water for live stock guaranteed—so that ranchers' operations can use range which drought had destroyed. 7. Hay crops improved on managed marshes. 8. Ideal conditions provided for colonies of gulls. In the field of forestry conservation, the Alberta government has long-range plans. These include:

1. Large areas of the province to be set aside as forested areas withheld from settlement. 2. Selective cutting and reforestation to be followed. 3. Better-trained personnel to be employed. 4. Continued programs of public education and continued appeals for public support of the program.

A particular appeal to hunters will be made through National Wild Life Week.

A number of rules are suggested: Be careful with your gun; avoid repeating the fatal accidents of other years.

Obey the game laws. Avoid waste. Retrieve the cripples. Remember, birds left dead or dying in the marsh are a total loss for either food or breeding stock. Select your hide if possible so that your ducks have a fair chance of dropping in the open. A good dog is one of the greatest aids to conservation. It is estimated that some birds that twice as many ducks are wounded or lost than are taken annually.

Be courteous to farmers and land-owners. Respect their live stock and property, respect their fences.

Be courteous to your fellow-hunter. Remember the golden rule. Treat him as you would expect him to treat you.

Bag male ducks when possible. This may appear rather a technical point, but survey reports indicate a much larger population of male than female birds in most species. We follow this practice with pheasants and big game and there is a possibility it may become practical with species of waterfowl where sex can be determined in flight.

Car Accidents

A couple of weeks ago while rounding the fourth street corner between the Nelson-Fabro residences Constable Wm. Antle and a Japanese, resident of the Lime Kiln, collided. Constable Antle had driven as close to the fence on his right hand side as he could and he saw the oncoming car apply the brakes and skid right into his car broadside. His car suffered approximately \$200 damage while the Japanese Studebaker got off very lightly.

On Saturday evening an east Coleman resident was driving his 1947 car towards the bridge crossing the Old Man river. As he was passing the entrance to Second street, a 1935 Pontiac owned by Frank Raymond came out of Second street and collided with the rear fender of the new car. Mr. Raymond failed to stop and drove away towards the railway crossing to town. He failed to hit the crossing fairly and the front wheels of the car hit the tracks, apparently with considerable impact as the front axle of the car snapped. The Motorhome wrecker was called to the scene and took the car to the garage. R.C. M.P. were also called in to investigate. It is understood that the 1947 car received approximately \$50 damage.

COMBINATION OFFER AT A SPECIAL LOW PRICE

THIS

25 LBS. MARVELUBE No. 11 GREASE WITH ALEMITE HAND LEVER GUN
For its price, this little hand lever gun is a honey. It was developed during the war for greasing military vehicles in mobile warfare. Light to carry, yet it exerts enough pressure to force the grease through to all moving parts. Can be used for all types of light-bodied, heavy-bodied or litrous greases.

OR THIS

25 LBS. MARVELUBE No. 11 GREASE WITH ALEMITE PRESSURE GUN

This pressure gun with flexible hose, which attaches to the top of the pail, is the ideal outfit for those who operate a lot of equipment. It is strongly constructed, yet is light enough to be carried anywhere. Saves time and keeps grease clean. Costs more than the hand-lever gun (above) but gives you high value for the money.

GREASE CUTS COST

It's an old but very true saying that "as long as grease is working out of a bearing, dust can't work in". Good lubricants of the proper grade, applied regularly, keep machines operating longer and at the same time reduce draft. Both of which help to cut costs. With either of the above outfits, you can keep all implements well lubricated, whether indoors or out in the fields.

Marvelube No. 11

IS THE IDEAL FARM LUBRICANT

Marvelube No. 11 is bright, clear, water resistant, soft enough to be forced through fine channels, yet has enough body for full protection. It's the ideal grease for farm machines.

STEPPING OUT IN SPRING FINERY—Braving the cool weather during the Easter week these lassies stepped out in spring finery and wore beautiful corsages for the occasion.

FOUND DEAD—Geraldine Revill, four, of Cornwall, Ont., was found dead with her head caught in the partly-opened window of her father's automobile, her body hanging on the outside. It is believed she climbed to the running board, put her head in the window, lost her balance, and strangled when unable to free herself.

PRINCESS MARGARET ROSE ACQUIRES "NEW" LOOK—Princess Margaret Rose, gradually assuming her share of responsibilities, is seen inspecting an honor guard of the Highland Light Infantry during Glasgow ceremonies. Note the "new" look on Princess Margaret Rose which she achieved by getting hemline taken down.

EYES PEPPERED—Blinded by pepper thrown in his eyes by two men who offered to sell him a car for \$2,000, Charles Kamichadis, Toronto, was robbed of \$1,100 and thrown from the car, according to police. He had drawn the money from the bank before going for a trial spin, he said, dividing the money between two pockets. The thieves emptied one of them.

SAVED PENNIES TO COME TO CANADA—An important immigrant is John O'Connor, 11, seen with his mother during a Toronto reunion. John's dad came over from Birmingham, England, last August, and his mother followed six months ago, but John couldn't wait until they got settled. He saved his pennies, bought his own ticket and flew over. He ran messages and did odd jobs to get the price of the ticket.

YOUNG TRAVELLER—Four-year-old Edmund Jones, with her doll, was among the passengers aboard the Queen Mary when the ship docked in New York recently. The little miss was on her way to Calgary, Alta., after a visit to relatives in Wales.

DOG AROUSES OWNERS DURING FIRE—A \$25,000 fire went undiscovered until Mr. and Mrs. William MacDonald, of Aurora, Ont., were awakened by the barking of their two-year-old watch dog, Rover. It was fortunate that they awakened when they did for the top part of their 116-year-old home had burned completely away. Rover is shown here with Mrs. MacDonald.

LEVEL-CROSSING TRAGEDY—A level-crossing accident at Weston, Ont., which brought instant death to Kenneth Fairbairn, smashed the milk wagon to splinters. Two boys look at the flattened milk case after the tragedy. The horse which drew the milk wagon into the path of a C.P.R. flyer at the railway crossing was also instantly killed. The milk driver was thrown 350 feet by the impact.

WILL RECALL MEMORIES—Many a Canadian airman will recall this scene with nostalgia. It is the beach at Bournemouth, England, but now it is packed with holiday crowds over the mild spring season.

"TINIEST MAN" REACHES NEW YORK—The tiniest man in the world, Francesco Rizzi, who is just a shade over three feet tall, and who weighs not more than an oversized kewpie doll, arrived aboard the Polish liner Sobieski at New York recently. Francesco, whose nickname is "Cucilo", was discovered hiding behind a suitcase on a Hudson river pier. Wearing a doll size fedora, a tiny topcoat and a double-breasted gray business suit, Francesco appeared ready to answer any questions, although he could speak nothing but his native Italian. Asked whom he wanted most to see during his stay in the U.S., Francesco answered without hesitation, "Lana Turner". He added he had seen Miss Turner in Rome. He is pictured above being held aloft by his manager.

NOT FOR BAD WEATHER—The weatherman really put a damper on fashion parades in a lot of Canadian towns and cities. Here's Dorothy Abram, who, like many another gal, feels lucky to have violets for her hat at this early date.

BEST OF BREED—This Yorkshire terrier, held by Joan Bedford of Union, N.J., weighs only three pounds, but Joan's mother, Mrs. R. A. Bedford, wouldn't sell him for \$2,000. He was judged best of breed in a show at Toronto.

RAMPAGING GRAND RIVER CAUSES DAMAGE—The Grand Valley centre of Bridgeport, Ont., was hit hard by the rampaging Grand river. Houses which were marooned by the rising water are shown. Racing waters swept huge ice cakes far from the river and in some places blocked the highways. Damage estimated at \$1,000,000 was done at Wingham, Ont., where the Mattland river wrecked a railway bridge and a grist mill.

OUR COMPLETE SHORT STORY—

: LADY AT WORK :

By FAITH KURT TIBERIO

CAROLA ADAMS sat between Redman Bixby and Lanny Devera, and tried to hide her nervousness. On her left, Redman, handsome, wealthy, slated to be the next Congressman from Oaktown, watched the bidding. His huge frame overshadowed Carola's own small one, and made Lanny seem taller and thinner by comparison. Lanny was less handsome than Redman, less forward, and much less wealthy.

"How much am I bid for this, folks," the auctioneer shouted, holding up a mahogany music box. It's the finest one I've seen in quite some time."

The box glistened in the sun, and Carola held her breath. "It's beautiful, isn't it?" she asked. Lanny, his tanned face a perfect blank, nodded. "It's just a music box," Redman said gruffly. "Nothing to get excited about." He squeezed Carola's hand. "You wouldn't want it."

She swallowed, and said bravely, "But I would."

A sudden change came over Lanny. "I'll bid ten dollars," he said. Redman frowned. Carola gasped. "Lanny, you mustn't. You've got to get your law library." She knew how Lanny skipped lunches and walked blocks to save money, and now she was sorry that Lanny came along, even though the three of them had gone around together since childhood. Since she had promised to marry Redman, everything seemed to be wrong.

"Fifteen," someone else said. In a matter of seconds, the bidding reached fifty dollars. Lanny sat down. "Sorry, Carola," he said. "I've only got forty dollars to my name."

Carola sighed with relief. "Oh Lanny, you shouldn't have tried. But thanks anyway." She smoothed the pink linen skirt which accented the daintiness of her figure. Redman leaned over. "Let me show you how it's done, Lanny. Struggling lawyers shouldn't go around trying to buy music boxes they can't afford." His voice was purposely loud enough for everyone to hear. Carola winced, and did not dare look at Lanny. "Sixty," Redman yelled.

People turned around to stare. They saw Redman, bull-like, dressed in the best tweeds, Carola, small and frightened, and Lanny, white-faced and angry. Carola heard people whispering. "That's Redman Bixby, and the dark-haired girl next to him is his fiancée. He'll get the box, all right. Always gets what he wants."

She wanted to scream. Instead she listened to Redman bid. It was up in the hundreds. "For heaven's sakes, Redman," she said, tugging at his sleeve, "don't bid any more. The box isn't worth it."

Redman shook her off impatiently. "Shut up," he said under his breath. "Can't you see I've got to bid, to keep up appearances. Why doesn't that chump stop bidding? Three hundred and ninety-five," he called.

A hush fell over the crowd. The other bidder shook his head and then mopped his brow with a handkerchief. "Sold," the auctioneer cried. "Sold to Redman Bixby. Right here, sir," he pointed to the bookkeeper's desk.

The wind rustled the leaves slightly as Redman walked through the camp chairs to pay for the box. His face was flushed red with triumph, and a smile was half-fixed on his mouth. Carola saw with a start that Lanny had gone. Without saying a word to anyone, she left the auction and hurried down the mill path, hoping against hope that Lanny would be at

the mill. They used to play there, when they were kids. As she rounded the bend, her heart nearly stopped when she did not see him. Then she saw that he was sitting on a big rock, his head in his hands, staring gloomily into the mill water.

"Lanny," she called. "Lanny, it's Carola." He untold his length, slowly, as if he didn't believe that Carola was there. "Carola," he murmured, "why... did you come?"

"I came," she said earnestly, as soon as she could get her breath, "because I love you, of course."

"But... but, I thought... that is, Redman," he stammered.

"Redman, nothing," Carola said firmly, moving closer to him. "I've loved you all along. I guess, but I had to make sure. That's why I asked you to come to the auction with us. I proved that Redman didn't really love me at all. I was just another possession."

"But he got the box for you, didn't he?" Lanny asked.

"Oh, yes," Carola said, "just to show you up in front of everyone. Well, he can have it, and good luck to him."

Lanny ran his hand through his hair. "Gosh, he said, 'gosh, I never thought you'd fall for me. All these years I've dreamed, but Redman had so much more to offer, I didn't say anything.'"

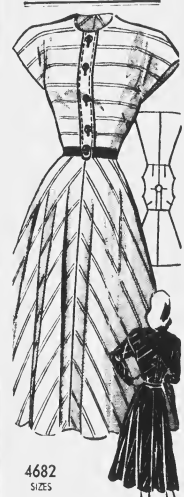

Carola smiled. "I knew you loved me, when you were willing to lose your books just to buy the box for me."

A troubled expression crept into Lanny's eyes. "That's something else again, Carola. We can't get married until I can afford the books, and from the looks of things, it's going to take me quite a while to save enough for them."

Carola took Lanny's arm and laughed softly. "That's the funny part of it, darling. We have enough now, thanks to Redman and his ego. That music box was mine, you know."

Easy-Do Dress

By ANNE ADAMS

Send for Pattern 4682, the wonder-dress with only THREE main pattern parts! Save precious sewing time, make this new beauty with the popular swirl skirt, tiny waist!

This pattern, easy to use, simple to sew, is tested for fit. Includes complete illustrated instructions. Pattern 4682 comes in sizes 12, 14, 16, 18, 20. Size 16 takes 3½ yds. 38-inch.

Send twenty-five cents (25c) in coins (stamps cannot be accepted) for this pattern. Write plainly name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man.

WHITEHORSE, Y.T., SEEK INCREASED EXPLORATION WORK

WHITEHORSE, Y.T. Increased exploration work in this petroleum-rich Yukon area is sought by the newly-formed Board of Trade.

The board feels its aims can be realized if two major handicaps—shortness of the season and transportation difficulty—can be overcome.

It suggests the territorial government open up more roads and try to reduce transport costs, to give "utmost" concentration of effort in the four-month season in which exploration can be done.

A. R. Hardy is president and R. J. Rowan secretary of the new body.

SASKATCHEWAN IS WELL REPRESENTED in the latest class of flight cadets at No. 1 Manning Depot, Toronto, where the boys are beginning their careers as aircrew officers in the R.C.A.F. Kneeling beside a British Harrel, used for dropping emergency supplies are (left to right) Flight Cadets D. M. Campbell of Saskatoon; and D. M. Nicholson, Dubuc, Standing (left to right) are Flight Cadets J. Freeman, North Battleford; R. Anderson, Loretburg and Saskatoon; C. E. Cole, Wapella; and W. V. Campbell, Saskatoon. The two Campbells both graduates last year of Bedford Road Collegiate, Saskatoon, are cousins. The six Saskatchewan boys are shortly to be posted to flying stations, to begin actual flying training as pilots or radio-navigators in the Regular Air Force.

SELECTED RECIPES

RHUBARB PIE
1 pint rhubarb
1 cup sugar
2 tablespoons flour
1 teaspoon salt
Wash rhubarb, cut into ½ inch pieces. Mix with other ingredients. Line deep pie pan with pie crust. Fill with mixture, being careful not to heap up. Measure pan before mixing ingredients, so that no more may be prepared than pan will hold. May be covered with an upper crust, or barred with narrow strips of crust, or baked in lower crust only, and meringue added. In this case, 1 or 2 beaten egg yolks are usually mixed with rhubarb.

OIL DEVELOPMENT PLANNED FOR SOURIS RIVER BASIN

MELITA, Man.—Developments indicate that the Souris River basin, from Lyleton in the south-west to Hartney in the north-east is to have a thorough going over during the summer, in an effort to ascertain the extent of potential natural gas and oil resources in the district. O. S. Ministry of New Orleans, an independent oil producer who has been obtaining mineral leases over the territory, extending from the western slopes of the Turtle mountains to Lyleton, was in Melita for the purposes of gathering leases on lands south and north of the river.

NIGHT SITTING

EDMONTON.—Local history was made recently when magistrate's court continued sitting after a hard day into its first night session. When the wheels of justice stopped grinding at 9 p.m., 62 cases had been disposed of by two magistrates.

DOES INDIGESTION WALLOP YOU BELOW THE BELT?

Help Your Forgotten "28" For The Kind Oil Relief That Helps Make You Run To Go

More than half of your digestion is done below the belt—in your 28 inches of bowels. So when indigestion strikes, try something that helps digestion in the stomach AND below the belt.

What you may need is Carter's Little Liver Pills to give needed help to that forgotten 28 feet of bowels.

Take one Carter's Little Liver Pill before and one after meals. Take them according to directions. They will make up a larger flow of the 3 main digestive juices in your stomach.

400,000,000 Americans and 40,000,000 Canadians are getting relief from indigestion by using Carter's Little Liver Pills from your druggist—also

Canada's Stock Of Farm Animals Is Taking A Downward Trend

OTTAWA.—Canada's stock of farm animals is following a downward path. Figures released by the Bureau of Statistics show that the numbers of cattle, sheep and horses on Canadian farms have fallen off considerably during the last year and are substantially below their wartime peaks. The report supplemented a recent survey showing a decline in hog numbers.

At Dec. 1, the bureau reported, the number of cattle was estimated at 8,943,500, down 72,000 from the corresponding date in 1946 and off nearly 2,000,000 from the wartime high of 10,759,000. Reductions occurred in Prince Edward Island, Nova Scotia, Quebec, Alberta and British Columbia.

Of the cattle total, 3,668,600 were milk cows, which were down 50,000 from Dec. 1, 1946. The number of sheep was estimated at 1,566,700 against 1,782,200 a year ago and a wartime peak of 3,726,000. Horses dropped to 1,978,400 from 2,243,200 the preceding year and 2,845,000 in 1943.

Experimenting In Products Made From Straw

REGINA.—Utilization of Saskatchewan-produced straw in the manufacture of wallboard building material is being investigated by the provincial Government.

Experiments, still in their early stages, are being conducted in Regina and Saskatoon to determine whether pressed straw would prove satisfactory in wallboards. (The Saskatchewan experiments are being carried on in co-operation with the National Research Council's laboratory there.)

Experiments into the use of straw for fuel, coal tar and paper are also to be conducted at a later date. Saskatchewan produces an estimated 20 million tons of straw annually.

Agriculture Minister I. C. Nollet announces that the Government is studying results achieved in Sweden where straw is used extensively in the manufacture of wallboards. "It's possible," he said, "that similar results could be achieved here, although our straw is much drier and consequently would need more processing."

Mr. Nollet said, however, that he personally favored turning straw to the soil to strengthen its fibre. He points out also that many farmers feed out and barley straw and use it for bedding down their animals.

BUSINESS FAILURES DOUBLED IN 1947

OTTAWA.—Nearly twice as many Canadian businesses failed in 1947 as the year before, the Bureau of Statistics reported.

Last year 545 concerns, ranging from retailers to manufacturers, went out of business. In 1946 the number was only 278. It was the third successive year, however, in which the figure rose, after dropping in 1944 to the lowest level in the period covered by official reports.

The amount of liabilities defaulted in 1947 rose to \$10,077,557 from \$5,986,153 in 1946.

Fifteen failures occurred in the Maritime provinces, 422 in Quebec, 72 in Ontario, 12 in the prairie provinces and 24 in British Columbia.

Mr. Nollet said, however, that he personally favored turning straw to the soil to strengthen its fibre. He points out also that many farmers feed out and barley straw and use it for bedding down their animals.

Western Briefs

THE PAS, Man.—Game experts predicted that the hundreds of caribou "wintering in the sorrier" likely would be off shortly on their annual spring trek to the far-north barrenlands.

CALGARY.—Sales at the annual Calgary horse sale this year averaged \$8 lower than in 1947, officials announced at its close. The 776 horses sold brought a total of \$45,510, averaging \$70.25 each against last year's record \$78.40.

VANCOUVER.—It sounded like a dairy aboard the China-bound American Mail line's S.S. Argentinian May as she sailed from here for Hong Kong. In deck-constructed stalls, 107 head of Canadian cattle — 102 dairy cows and five bulls—started the long voyage. Three cowhands from the Fraser valley rode herd.

WINNIPEG.—Steps will be taken this year to extend health services, Health Minister Schultz said in the legislature in presenting his department's estimates.

CALGARY. Barbara Ann Scott was inducted into the Sarcee Indian tribe at a special ceremony and henceforth will be known to the Indians as "Sootz-Ahtsa" or "Shining Star."

REVELSTOKE, B.C. — Something out of the ordinary in the way of contests has been announced by the Revelstoke Kinsmen in connection with their annual Golden Spike Days carnival, Dominion Day. The club is offering \$1,000 to the mountaineer who ascends Mount Revelstoke in the fastest time.

CALGARY.—Norman Griffiths of Mazenod, Sask., received a silver pin for first-year honors at the University of Alberta educational fair at the Calgary branch. Gold pins were awarded at the commencement exercises to five students graduating with honors.

Lloydminster Oil Production Increase

REGINA.—Oil production in the Saskatchewan sector of the Lloydminster oil field reached 138,877 barrels during the first two months of 1948, nearly four times the production during the same period in 1947, the Provincial Resources Department said. There were 77 wells operating in February, compared to 19 wells in February, 1947.

"SALADA" TEA

Delicious Flavour

"An important part of my diet ever since my first bottle has been Crown Brand Corn Syrup. Now, that may be all right for a little character like myself, but let me tell you, these grown-ups sure are lucky what with Mom serving them Crown Brand Corn Syrup with so many of their dishes. And she uses it in her baking, too, as a sweetener. I can hardly wait until I'm old enough to have some hot waffles or pancakes smothered with delicious Crown Brand. If it's as good as it is in my cereal—mmmmmm!"

For years doctors have recommended the use of Crown Brand Corn Syrup as a satisfactory carbohydrate acting as a milk modifier for bottle-fed infants.

LOCAL NEWS

Mrs. R. Wilson, of Isle Pierre, B.C., is the guest this week of Mr. and Mrs. H. Parkinson.

Mr. Clarence Hawkins, of Rolling Hills, has joined the staff of White Rose Service Station.

Mr. and Mrs. M. Michael and Mrs. M. Savage motored to Lethbridge last week where Mr. Michael received medical attention.

Mr. Lou Clary has gained employment with West Canadian Collieries as a truck driver at its Adanac mine. He and Mrs. Clary are now seeking a home in Bellevue.

The Misses Irene Hazuka and Wilma Michalsky left Tuesday of last week on a vacation to be spent at Seattle. While in the Pacific Northwest city they will visit Mr. and Mrs. Albert Kropinak and Miss Ida Castellano, nurse-in-training. They may also travel to Vancouver, B.C. to visit relatives should time permit.

The old quarters of the town office are being given a much needed face-lifting this week. A decorator is busy with a kalsomine brush and with hard work and perseverance hopes to make the place look much cleaner.

Mr. George Derbyshire, of Coronation, arrived in town last Saturday morning to attend the presentation and dance accorded Coleman veterans by the citizens of Coleman via Coleman Citizens Reception & Rehabilitation committee. While in town he was the guest of his parents, Mr. and Mrs. George Derbyshire.

The Journal acknowledges with thanks renewal subscriptions received during the week from Mrs. T. Samson Jr., of Toronto, Mr. Herb Sherratt, of South Slokan who is joined by Mrs. Sherratt in extending best wishes to Coleman friends and Mr. and Mrs. Gus James, of Vancouver, who, in their own words are "having lovely weather." They too wish to be remembered by old friends.

In Memoriam

TIBERGHIEN—In Loving Memory of our dear daughter and sister, Emily, who passed away at Coleman on April 10, 1940. Nothing can ever take away the love a heart holds dear.

Fond memories linger every day. Remembrance keeps her near, —Ever remembered by her mother and Henry.

TRUCH—In Loving Memory of our dear daughter and sister, Elizabeth, who died April 14, 1946.

Sweet little flower of heavenly birth. She was too fair to bloom on earth.

—Ever remembered by Mom and Dad, sister and brothers.

Please folks be extra careful this year! Hold your match until it's cold—then pinch it to make sure.
